Strong earthquake shocks in Delhi including Punjab

EARTHQUAKE

ਭੂਚਾਲ

There is news of strong tremors felt in Delhi NCR including Chandigarh and some parts of Punjab. Its magnitude was recorded as 5.8 on the Richter scale. According to information, the center of the earthquake was Pakistan. Earthquake tremors were also felt in Pakistan's Islamabad and Lahore. Apart from Delhi-NCR, earthquake tremors were felt in several states of North India. No loss of life or property has been reported. The tremors were fairly mild so the potential for damage is minimal.
